

Your TV service is going 100% digital!

See important information below.

Dear Spectrum Customer,

Thank you for being a Spectrum customer. We are proud to be America's fastest-growing TV, Internet and Voice provider. Our employees are committed to delivering best-in-class products and customer service, all at a great price. To deliver even more value to you, we are converting your TV service to a 100% digital format.

You will be required to have a digital receiver on each TV in your home by October 23, 2018. To help with this transition, we will supply you with one Spectrum Receiver at no cost to you for up to the term of the current agreement between Spectrum and your apartment complex.*

What is happening to your service?

Spectrum is upgrading its entire channel lineup to a digital-only signal. This change will allow us to deliver you an increase in HD channels as well as improve all TV channels with even better picture and sound quality. In addition, we will be able to offer you a more expansive lineup of channels, increase your Internet speed, and provide exciting new products and services for you to enjoy—including access to thousands of FREE On Demand choices.

Who will be affected?

Any customer who subscribes to TV service and connects their cable line directly into the back of their TV will lose picture on all channels.**

What will happen to your current TV channels?

Some channels will be added, other current channels will be moving to new locations and some channels will be removed, consistent with your level of service.

For your convenience, please find your new channel lineup on the following pages. It outlines the changes and will serve as a handy reference guide so you can easily find all of your new channels.

If you would like to add channels, we offer great packages at great prices. We will work with you to find the TV package that best fits your needs.

What should you do?

If you have an existing set-top-box, digital transport adapter (DTA), or retail device with a CableCARD on each TV you are watching, you should be unaffected by this change. If you connect your cable line directly into the back of your TV, you will need to order a self-installation kit. You'll find all the equipment your TVs need to be 100% digital-ready, plus simple step-by-step instructions so you can easily make the upgrade in minutes - no technician necessary.

See the important notice on the right to learn how to order your self-installation kit today.

Need additional info or help? Call 1-877-350-2956.

¿Necesitas más información o ayuda? Llama al 1-877-350-2956.

Add one Spectrum Receiver at no cost to you for up to the term of the current agreement between Spectrum and your apartment complex.* today, and see how we are redefining what a cable company can be.

Sincerely,

Joseph Varello

VP, Community Solutions

On October 23, 2018, Charter will start encrypting the Basic Service Tier offering on your cable system. If you have a set-top box, digital transport adapter (DTA), or a retail CableCARD device connected to each of your TVs, you will be unaffected by this change. However, if you are currently receiving the Basic Service Tier offering on any TV without digital equipment, you will lose the ability to view any channels on that TV. If you are affected, you should contact Charter to arrange for the equipment you need to continue receiving your services. In such case, you are entitled to receive equipment at no additional charge or service fee for a limited period of time. The number and type of devices you are entitled to receive and for how long will vary depending on your situation. If you are a Basic Service Tier offering customer and receive the service on your TV without digital equipment, Charter will provide you up to two devices for two years (five years if you also receive Medicaid). If you subscribe to a higher level of service and receive the Basic Service Tier offering on a secondary TV without digital equipment, Charter will provide you one device for one year. You can learn more about this equipment offer and eligibility at Spectrum.com/digitalnow or by calling 1-877-350-2956. To qualify for any equipment at no additional charge or service fee, you must request the equipment between October 16, 2018 and February 20, 2019 and satisfy all other eligibility requirements. TV: Programming may vary. Channels, Tiers and Packaging subject to change. Services not available in all areas. Digital set-top box or CableCARD required to view programming channels. Digital set-top box required to view PPV and On Demand programming (where available). HD capable equipment required to view HD programming (where available). All programming may not be available to CableCARD customers. All service levels may contain channels with some R-rated programming, which can be blocked using the Parental Control feature on your on-screen program guide. Account credentials may be required to stream some TV content online. INTERNET: Available Internet speeds may vary by address. VOICE: Unlimited calling includes calls within the U.S., Canada, Mexico, Puerto Rico, Guam, the Virgin Islands and more. Taxes and fees included in price. ©2018 Charter Communications.

Your channel lineup. Effective October 23, 2018.

All the below channels are accessible with Spectrum Receivers. All NEW HD channels are indicated where applicable. Not all equipment supports all services. Order your Spectrum Receivers to receive the entire channel lineup on all your TVs.
